OTHER COMMENTS FROM [redacted]   25X1A9a

EDITORIAL DIVISION

1.   Since all NIS manuscripts will within a few years be printed by a computerized photo-composing system (EPIC), Editorial Division people should be given appropriate training in that system.

2.   Editors should be encouraged by their division chief to offer suggestions for improving the content of the NIS.

3.   All editors should have a special clearance to permit them to talk to OCI and OER analysts at their desks.

4.   Branch meetings are never held in the Editorial Division, and people are uninformed.
